الأئمة السبع The Seven Imams

Each Imam has two narrators (راوي), or two known imams who have passed on reading from a particular Imam. There can be significant differences in the reading between one narrator and another depending on what their Imam taught them. All ways are authentic readings of the Qur'an and are part of the revelation. Note: Ad-Dooree (الدوري) is a narrator for two different qira'ah and Khalaf (خلف) is a narrator for the qira'ah of Hamzah (حمزة) in addition to the fact that there is a qira'ah named after him in the three qira'aat in the second outline below. .
